

Galswintha of the Visigoths  
Promised the King of Newstria  
Love him until the day of death  
What did she know  
What a man was he

Galswintha sleeping all alone  
Life in the hands of Fredegund  
Jealousy blowing up her wits  
She put an end to the princess' life

Mercy, there is no mercy within anger  
Darkness, there's only darkness in your blindness  
Burning, you will be burning for your cruelty  
Envious eye mistress of cruelty

Angel, a dark angel in her chamber  
Fearless a maiden, fearless as she strangles  
Burning, you will be burning for your cruelty  
Envious eye mistress of cruelty
