You like music from rap to gospel  
But ya prolly neva heard nobody rap the gospel  
Different sound but the truth's the same  
With no choirs no bands but the truth remains  
We got fam and the clique set the booth on flames  
St Louis others philly, like Duce and Flame  
If ya lost in the flow don't lose the name  
It's Jesus Christ the king of the jews my mayn  
This ain't entertainment dawg it's timeless truth  
Would you rather hear a song about shiny coupes, nope  
Non-fat non-gat non-killla rap, 100% christ da blood spilla rap  
Ya'll feelin that, rap wrapped up with the gospel, ay trip dawg run it back  
Ya'll feelin that? Rap wrapped up with the gospel ay trip dawg run it back

If in our car you hear that boom-bep  
And you hear some dude's rep  
It ain't dem folks that boast, it's folks that tell you where the truth's at  
We don't wanna hear about dimes and dope (nope)  
We don't wanna hear about nines and smoke  
We don't wanna hear about movin packs and foolish cats who lie and boast  
We do wanna hear about Christ the king  
Do wanna hear how lives is changed  
We do wanna hear how God is pleased  
And theology of the Bible mayn  
This Jesus music turn heads, so turn it up and let em know  
In all we do he's first and, this Jesus music's better bro (yeah)
