

## Wearing and Tearing

Led Zeppelin

It starts out like a murmur  
Then it grows like thunder  
Until it bursts inside of you  
Try to hold it steady  
Wait until you're ready  
Any second now will do  
Throw the door wide open  
Not a word is spoken  
Anything that you want to do

Ya know, ya know, ya know...

Don't you feel the same way?  
Don't you feel the same way?  
But you don't know what to do  
No time for hesitatin'  
Ain't no time for hesitatin'  
All you got to do is move  
They say you're feeling blue, well  
I just found a cure  
It's a thing you gotta do, yeah

Ya know, ya know, ya know...

Now listen: You say your body's aching?  
I know that it's aching  
Chill bumps come up on you  
Yeah, the funny fool  
I love the funny fool  
?Just like foolin' after school?  
And then you ask for medication  
Who cares for medication  
When you've worn away the cure

Ya know, ya know, ya know...  
Go back to the country  
Yeah, go back to the country  
Feel a change is good for you  
When you keep convincin'  
Ah, don't keep convincin'  
What's that creeping up behind a you?  
It's just an old friend  
It's just an old friend  
And what's that he's got for you?

Ya know, ya know, ya know...

Do your dance do your dance do your dance  
Ooooooh, medication. Medication! Medication!
