

# I Need Love

Ledisi

Love  
You said you'd never go away  
But your gone, and I'm right back where I used to be  
Wondering if you really were for me  
Love  
Why did you have to go away  
That was so much love that I gave to you  
Is there someone out there with a love that is true

I need love  
Somebody to touch me  
Somebody who wants to be with me only  
I need love  
Somebody to hold me  
Tell me that they love me  
Never gonna let me go  
I need love  
Somebody to touch me  
Somebody who wants to be with me only  
I need love  
Somebody who loves  
Somebody who wants to be with me only  
I need love

Love  
I don't think I have much more to give to no one else  
Maybe it's time for me to be by myself  
Because it hurts to much to put my love on the shelf  
Love  
It's so hard to let it go, when your longing for love  
I'll let go and I hope that it's true  
When it's real love it will come back to you

I need love  
Somebody to touch me  
Somebody who wants to be with me only  
I need love  
Somebody to hold me  
Tell me that they love me  
Never gonna let me go  
I need love  
Somebody to touch me  
Somebody who wants to be with me only  
I need love  
Somebody who loves  
Somebody who wants to be with me only  
I need love

I need  
Someone whos  
Someone whos  
There (2x)  
Somebody there  
Someone who cares  
For me  
I need love  
Love

I need love  
Somebody to touch me  
Somebody who wants to be with me only  
I need love  
Somebody to hold me  
Tell me that they love me  
Never gonna let me go  
I need love  
Somebody to touch me  
Somebody who wants to be with me only  
I need love  
Somebody who loves  
Somebody who wants to be with me only  
I need love
