

Black Metal Jesus

Lee Aaron

Lick down my silver lining let, me, crack, the, fuse
Psychotic dream, lover meteor you came ta me, you came to me
I woke up screaming, vivid diamond star intensity, intensity

Monster metallic, megaton of power
Coming down on me, ten thousand miles an hour
Sugar bomb phallic, I can almost taste
Leave me reelin' from your die cast embrace

Black metal Jesus
I wanna be your girl

Shellshock cool, you're the wonder drug I've waited for, been waitin' for
Elated cruel, that feeling of control that I adore, and I want more

Monster metallic, megaton of power
Comin' down on me, ten thousand miles an hour
Sugar bomb phallic, I can almost taste
Leave me reelin' from your die cast embrace

Black metal Jesus
I wanna be your girl

Disarm.
Disarm.
Disarm, the demons in my head

Black metal Jesus
I wanna, be your girl
Black metal Jesus
I wanna, be your girl

Black metal Jesus
(Black metal Jesus)
I wanna, be your girl
Black metal Jesus
(Black metal Jesus)
I wanna, be your girl
