

Evil Game

Lee Aaron

Well if you're lookin' fer truth
You won't find it here
Cuz it's a ruthless world
Gets harder to survive every year

Though the rich get rich
Richer, every day
And the guy on the street ain't got much
But he's got a lot ta say

We just try to stay alive
But we can take it
An' we can make it cuz we realize

(That it's an evil game) and you play and play
But you never win enough and you play to win
But they play the game too rough
(It's an evil game)
Oh it's your claim to fame
And you know that you gotta be tough
Cuz it's an evil, evil, evil game

Better hold on tight
Cuz you're in for a ride
But you gotta be true to yourself
And the things that ya feel inside

We jus' try to stay alive
But we can take it
We can make it cuz we realize

(That it's an evil game) and you play and play
But you never win enough
(It's an evil game) and you play to win
But they play the game too rough
(It's an evil game) oh it's your claim to fame
And you know that you gotta be tough
It's an evil, evil, evil game

(It's an evil game) and you play and play
But you never win enough
(It's an evil game) and you play to win
But they play the game too rough
(It's an evil game) oh it's your claim to fame
And you know that you gotta be tough
It's an evil, evil, evil game
