

# How Deep

Lee Aaron

I remember when we first met  
The thunder in our hearts.  
How could we 'ave known back then  
That we'd take. it this far

Never put any limits on love  
It got out of our hands.  
Somewhere the dreaming was over.  
Now this is where we stand...

And ya don' always let it show.  
But I still need to know...

How deep does it go...  
How deep does it go...  
Is it there when the flame's burnin' low  
How deep does it go

They say that, time passes, time changes  
Mystery fades away.  
Yet there are moments when we're so close  
Like a new. yesterday

Are we strong enough, to keep it true enough.  
Questions still remain.  
Cast away all our fears tonight.  
Hold me close again...

And ya don' always let it show.  
But I still need to know...

How deep does it go...  
How deep does it go...  
Is it there when the flame's burnin' low  
How deep does it go.

And ya don' always let it show...  
But I still need to know...

How deep does it go...  
How deep does it go...  
Is it there when the flame's burnin' low  
How deep does it go...

(How deep does it go...)  
Will ya, stand by me  
When times are tough  
(How deep does it go...)  
Or will you, walk. away when you' had enough  
(How deep does it go...)  
How deep  
How deep, I need. ya ta let me know  
(How deep does it go...)  
How deep does it go...
