

Night Riders

Lee Aaron

Through the cover of darkness
You can find them stalking the town
Rulers of the underworld
Haunting day to down

Children of the night-time
Coming out to play.
Never want to see
The light of day

The eyes are filled with fire
Poison flows in their veins
Gleaming chrome of power
Screaming under their brains

Children of the night-time
Coming out to play.
Ya know they're out

Night riders painting the town
Night riders on the rebound
Night riders painting the town
Night riders, night riders...

You'll be crying for mercy
Destruction is their will
Driven by evil desire
Jackal said in for the kill

Children of the night-time
Coming out to play.
You know they're out

Night riders painting the town
Night riders on the rebound
Night riders painting the town
Night riders night riders yow!

Night riders on the rebound
Night riders painting the town
Night riders on the rebound
Night riders painting the town
Night riders on the rebound
Night riders... night rider
