

## A Little Past Little Rock

Lee Ann Womack

I had to leave my life in Dallas  
That town will always be you  
In every crowd, on every corner  
In every face I'd see you  
So with nothin' more than a tank of gas  
I drove away without lookin' back  
And I guess that's how I got where I am  
And goin' anywhere as fast as I can

And I'm a little past Little Rock  
Further down the line  
Too soon to know what's up ahead  
Too late to change my mind  
I gotta keep my heart out of this and both hands on the wheel  
I'm learnin' more with every mile just how leavin' feels  
It's a lonely stretch of blacktop out into the blue  
Don't know where I'll go or what I'll do  
I'm a little past Little Rock  
But a long way from over you

These headlights on the highway  
Disappear into the dark  
And if I could have my way  
I'd go back to where you are  
Oh, but I can't turn this thing around  
And nothing short of breaking down  
Is gonna get me off this road I'm on  
Oh, and I'm still a far cry from gone

And I'm a little past Little Rock  
Further down the line  
Too soon to know what's up ahead  
Too late to change my mind  
I gotta keep my heart out of this and both hands on the wheel  
I'm learnin' more with every mile just how leavin' feels  
It's a lonely stretch of blacktop out into the blue  
Don't know where I'll go or what I'll do  
I'm a little past Little Rock  
But a long way from over you
