

A Little Past Little Rock

Lee Ann Womack

I had to leave my life in Dallas
That town will always be you
In every crowd, on every corner
In every face I'd see you

So with nothin' more than a tank of gas
I drove away without lookin' back
And I guess that's how I got where I am
Goin' anywhere as fast as I can

And I'm a little past, little rock further down the line
Too soon to know what's up ahead, too late to change my mind
I gotta keep my heart out of this and both hands on the wheel
I'm learnin' more with every mile just how leavin' feels

It's a lonely stretch of blacktop out into the blue
Don't know where I'll go or what I'll do
I'm a little past, little rock
But a long way from over you

These headlights on the highway
Disappear into the dark
And if I could have it my way
I'd go back to where you are

Oh, but I can't turn this thing around
And nothing short of breaking down
Is gonna get me off this road I'm on
Oh, and I'm still a far cry from gone

And I'm a little past, little rock further down the line
Too soon to know what's up ahead, tToo late to change my mind
I gotta keep my heart out of this and both hands on the wheel
I'm learnin' more with every mile just how leavin' feels

It's a lonely stretch of blacktop out into the blue
Don't know where I'll go or what I'll do
I'm a little past, little rock but a long way from over you
I'm a little past, little rock but a long way from over you
