

Bottom of the Barrel

Lee Ann Womack

You got a lot of glitter in your pocket, a title on your name
A big time in luck, you love to wish away
Is it worth the climb just for the high
You wonder why, sometimes you wonder why, come on

Get down
Come on get down too, they're barely getting by
Back down where the wells run dry
There's a whole lotta loving, the living comes cheap
Down at the bottom of the barrel with me, come on

Get down
Come on get down
So you miss the best of

Waiting on nothing but when everybody's name
Simply through life drifting before it was in vain
Ain't it a-worth to fall, to lose it all
All that weight on your heart, listen to your spirit call, come
on

Get down
Come on get down too, they're barely getting by
Back down where the wells run dry
There's a whole lotta loving, the living comes cheap
Down at the bottom of the barrel with me, come on

Get down
Come on get down too, they're barely getting by
Back down where the wells run dry
There's a whole lotta loving, the living comes cheap
Down at the bottom of the barrel with me, come on

Get down
Come on get down too, they're barely getting by
Back down where the wells run dry
There's a whole lotta loving, the living comes cheap
Down at the bottom of the barrel with me, come on
