## I Found It In You

Lee Ann Womack

Everybody needs a reason to believe Something to keep 'em going To set their soul on fire And make 'em feel alive It's their inspiration

Some find it in living off the land Some find it in working for the man Some find it with a bottle in their hand That's what gets 'em through Some find it in a shiny limousine Some find it in the magazines they read Some find happiness is out of reach No matter what they do Baby, that's not me I found it in you

I always wondered when My search was gonna end And I'd find what I'd been missin' Now everything you are It goes right to my heart And it feeds this passion

You're my journey's end My solid ground You're what I could never live without

I found it in you
