Why They Call It Falling

Lee Ann Womack

It's like jumpin It's like leapin It's like walkin on the ceilin It's like floatin It's like flyin through the air It's like soarin It's like glidin It's a rocket ship you're ridin It's a feelin that can take you anywhere So why they call it fallin Why they call it fallin Why they call it fallin I don't know There was passion There was laughter The first mornin after I just couldn't get my feet to touch the ground Every time we were together We talked about forever I was certain it was Heaven we had found So why they call it fallin Why they call it fallin Why they call it fallin I don't know But you can't live your life Walkin in the clouds Sooner or later You have to come down It's like a knife Through the heart And it all comes apart It's like someone takes a pin to your balloon It's a hole It's a cave It's kinda like a grave When he tells you that he's found somebody new So why they call it fallin Why they call it fallin Why they call it fallin Now I know Ooh, why they call it fallin Why they call it fallin Now I know
