

Beautiful Every Time

Lee Brice

I've been around the ocean since I was a kid
I don't get to see it much these days
This mornin' I walked down to it just to say I did
And Damned if it didn't take my breath away
I guess some things are just that way
Like a baby sleeping
A Momma kneeling
A Key-West sunset sky
Yeah the chills I get when you lay your lips on mine
That's Beautiful ... beautiful every time

Well I could hear the music drifting over the dunes
It sounded like a weddin' on the beach
I Figured I'd take a closer look
Had nothin' better to do
Yes I forgot the sight a blushing bride could be
Well I guess amazing is always amazing
Like a baby sleeping
A Momma kneeling
A Key-West sunset sky
Yeah the chills I get when you lay your lips on mine
That's Beautiful
Beautiful every time

I guess amazing will always be amazing
Like a church choir singing
A nation healing
A soldier coming home alive
The love for me girl I see in your eyes
That's beautiful
Beautiful every time
Oh every time
