

# Picture of Me

Lee Brice

I grew up on the edge of a cornfield  
At the end of a long dirt road  
Carolina plow boy  
Ain't had a free summer since I was ten years old

Mama made us pick our own switches  
So we could feel the sting of doin' wrong  
That set me straight on the road I'm still on

I am who I am  
The product of a good woman loved by a real good man  
I've learned what I've learned  
By findin' the right way in all of my wrong turns

I love what I love  
I ain't afraid to say it 'cause I'm damn sure man enough  
That's what you need to see to get a picture of me

I grew up on gospel 'cause that's all my daddy'd listen to  
I found my soul in rock and roll  
When me and my first guitar were introduced

Truth is I've only loved one woman  
And she'd have stayed, but I made her leave  
She's still hauntin' me in every song I sing

I am who I am  
The product of a woman still loved by a stubborn man  
I've learned what I've learned  
By findin' the right way in all of my wrong turns

I love what I love  
I ain't afraid to say it 'cause I'm damn sure man enough  
That's what you need to see to get a picture of me

Like me or leave me  
Either way you know it the second you shake my hand  
I'm a long way from Jesus  
But I know He knows I'm doin' the best I can

I am who I am  
The product of the good Lord lovin' a sinful man  
I've learned what I've learned  
By findin' the right way in all of my wrong turns

I love what I love  
I ain't afraid to say it 'cause I'm damn sure man enough  
That's what you need to see  
That's what you need to see to get a picture of me
