

# Power of a Woman

Lee Brice

It can make a a man feel like a kid  
Or feel just like a clown  
It can make him run for cover  
Or stay and stand his ground  
It can make a man pick up the bottle  
Or help him lay it down  
It can stop his whole world from turning  
Or turn his whole world around

That's the power of a woman  
It's the touch of her hand  
One smile one tear one whisper in your ear  
That's the power of a woman

It can make a man beg for Jesus  
Or make him wish he'd never asked  
It can make him dream about the future  
Or make a nightmare of his past

That's the power of a woman  
It's the touch of her hand  
One smile one tear one whisper in your ear  
That's the power of a woman

She can say so much without saying a word  
That's just the power of a woman  
It's the touch of her hand  
One smile one tear one whisper in your ear  
That's the power of a woman

The power of a woman

She can make you feel like a king or feel just like a clown
