

# That's When You Know It's Over

Lee Brice

When you can look at her picture and not wanna kiss her no more  
,  
When you don't feel like you've been hit by a train at the sound  
of someone saying her name anymore  
When you can drive down the road and not be afraid of what's playing  
on the radio

That's when you'll know it's over  
That's when you've made it  
Over to the other side, ready for another ride  
That's when you'll know it's over

When that time of the year don't stir up any tears anymore  
When it don't feel like the past is a gun and there's nowhere to  
run anymore  
When it don't take every bone to not dial her number just leave  
her alone

That's when you know it's over  
That's when you know you've made it  
Over to the other side, ready for another ride  
That's when you know it's over

When you wouldn't go back, even if you could  
When hearing she's happy finally feels good

That's when you know it's over  
That's when you know you've made it  
Over to the other side, ready for another ride  
That's when you know it's over

That's when you'll know it's over
