

# They Won't Forget About Us

Lee Brice

The whole week on the beach, sunburns  
Held aboard up on the floor of a cheap hotel  
Give a rebel yell off the balcony (Heh)  
Oh, we were proud to be from  
The dirty south, y'all keep it down  
But we turn it up and they kicked us out  
We might have left but we didn't leave no doubt  
What we were all about

Everybody knew we brought the party  
We were always getting something started  
Weren't worried 'bout the consequences  
Yeah, we liked to run through the fences  
Each town learned to love and hate us  
I'm pretty sure they're still talking 'bout us  
I can't tell you everything but I'll tell you one  
They won't forget about us

All our friends  
All the trouble we got in  
And we'd all do it all again

Hey, y'all remember that one time it was overtime  
Laid the heat on the quarterback  
He dropped the ball, we ran it back  
Then after that  
We hot-wired a team bus, got her fired up  
Drove it round bout half the night  
Saw the blue lights, they let us go  
'Cause we brought the trophy home, yeah

Everybody knew we brought the party  
We were always getting something started  
Weren't worried 'bout the consequences  
But yeah, we liked to run through the fences  
The town learned to love and hate us  
I'm pretty sure they're still talking 'bout us  
I can't tell you everything but I'll tell you one  
They won't forget about us, no they won't

They won't forget about us  
All our friends  
All the trouble we got in  
We'd all do it all again

Everybody knew we brought the party  
We were always getting something started  
Weren't worried 'bout the consequences  
But yeah, we liked to run through the fences  
The town learned to love and hate us  
I'm pretty sure they're still talking 'bout us  
I can't tell you everything but I'll tell you one  
They won't forget about us, no

Hah, they won't forget about us
