

## Do Over

Lee Carr

damn, i can't believe  
i just can't believe it

girl how could i  
go hurt you, make you cry  
treat you like you with somebody else  
(ain't nobody fault) baby, but mine  
(said it a thousand times)  
but you can't hate me more than i hate myself  
didn't notice just how much you ride (for me you ride)  
most focus, put you to the side (put you to the side)  
and i'm terrified to find out  
if you could survive after what i made you go through

it's tearin me up inside  
got nowhere to hide  
hard to even look in your eyes  
i can't lie to you girl  
tearin me up inside  
got nowhere to hide  
feelin like i'm buried alive  
i need another chance  
to get it right (i want it right)  
girl let's take it back to (when we were 5)  
and how we did it back then  
i need a (ey) do over, (ey) do over  
(ey) do over, need a do over

damn, what did i do  
puttin me before you  
guys said that good love is enough (?)  
(didn't really ever) just think it through  
(playin you, now i lose)  
someone to hold your love for me  
your trust (my trust)  
chances you won't give me no more (give any more)  
but i'll do better than before (love you like before)  
and i'm sure that you don't wanna hear it  
but you won't regret it, if all is forgiven

if i could clear my slate,  
i'd wash it away  
take back everything i said  
then maybe we could start us over today  
wanna know how bad i'm sorry

it's tearin me up inside  
got nowhere to hide  
hard to even look in your eyes  
i can't lie to you girl  
tearin me up inside  
got nowhere to hide  
feelin like i'm buried alive  
i need another chance  
to get it right (i want it right)  
girl let's take it back to (when we were 5)  
and how we did it back then

i need a (ey) do over, (ey) do over  
(ey) do over, need a do over

over  
a do over, a do over  
baby can i get a do over  
a do over, a do over  
baby can i get a do over (over)  
a do over (over)  
a do over (over)  
baby can i get a do over (over)  
a do over (over)  
a do over (over)  
can i get a do over

it's tearin me up inside  
got nowhere to hide  
hard to even look in your eyes  
i can't lie to you girl  
tearin me up inside  
got nowhere to hide  
feelin like i'm buried alive  
i need another chance  
to get it right (i want it right)  
girl let's take it back to (when we were 5)  
and how we did it back then  
i need a (ey) do over, (ey) do over  
(ey) do over, need a do over

i said i need, i said i need it, baby  
now i'm all messed up, lemme get a do over  
and i promise i'll do it right this time  
just lemme get one more chance
