I Dont Even Wanna Be In The Club

I don't even wanna be in the club Cause all the women show me love All I seem to do is think about Everything I had before I can't blame it on the alcohol, And the beat goes on and on But all I seem to do is keep thinking about, keep thinking about her I don't even wanna be in the club

Can't eat, can't sleep, can't think without you here The day you left, my world disappeared I never wanted us to be over Now look at what I did now we over I'm standing in the vip cause you're all that I see Every time I turn around I think my mind is playing tricks on me I lost my love and it's killing me Said it's killing me And that's why I say

I don't even wanna be in the club Cause all the women show me love All I seem to do is think about Everything I had before I can't blame it on the alcohol, And the beat goes on and on But all I seem to do is keep thinking about, keep thinking about her I don't even wanna be in the club I don't even wanna be in the club I don't even wanna be in the club

I was in the club, drinking my cup, Throwing it up like I didn't give a f**k Fronting like I ain't thinking about you What am I to do this is ridiculous I never wanted us to be over Now look at what I did now we over I'm standing in the vip cause you're all that I see Every time I turn around I think my mind is playing tricks on me I lost my love and it's killing me Said it's killing me And that's why I say

I don't even wanna be in the club Cause all the women show me love All I seem to do is think about Everything I had before I can't blame it on the alcohol, And the beat goes on and on But all I seem to do is keep thinking about, keep thinking about her I don't even wanna be in the club
