

# King & Queen

Lee Carr

Usually I'm the type of guy to run around  
But it seems that I found a girl to hold me down  
She's the type of girl that makes you wanna  
Stop and stare at her  
And her touch made me realize  
That she ain't really like them other girls I got  
I-I-I see the difference with them other girls I don't need no more  
And all I gotta say is that (hey)

[Chorus:]

You're the one that I need  
And I don't need another  
This is where you need to be  
Babe, we need each other  
You're my queen (hey)  
And I'm your king (hey)  
This is how it's supposed to be  
And now you can be my queen  
I can be your king  
And now you can be my queen  
I can be your king Oh Oh Oh

So what you think about that?  
Sit back and laugh  
When you step aside, you down to ride  
You know that everything that you want  
I promise you, baby it's yours  
And you know why?  
Cause your touch made me realize  
That she ain't really like them other girls I got  
I-I-I see the difference with them other girls I don't need no more  
And you know why?

[Chorus]

Listen  
Don't you ever take me out zone  
It's funny how I can't leave you alone  
That's all for me to stay mad at you  
So whatchu wanna do?

[Chorus]

You can be, girl  
You could be my queen  
I could be your king, shawty  
You could be my queen  
I could be your king, shawty  
You can be my queen, girl  
I can be your king, shawty  
You can be my queen, girl  
I can be your king, shawty
