

# All Fall Down

Lee DeWyze

And if I were the world  
I would stop turning  
And if I were the trees  
I would stop burning  
And if I were the sky  
I would fall down, down, down  
Because what goes up must come...  
We all fall down  
We all fall down  
We all fall down  
We all fall down  
Down, down, down, down, down, down

So many unhappy faces  
In so many unhappy places  
And if I were the king  
Would anything change?  
Because after time  
Only the faces and the names are rearranged

And if I were the world  
I would stop turning  
And if I were the trees  
I would stop burning  
And if I were the sky  
I would fall down, down, down  
Because what goes up must come...  
We all fall down  
We all fall down  
We all fall down  
We all fall down  
Down, down, down, down, down, down

And if I were the world  
I would stop turn...
