

Little Did I Know

Lee DeWyze

(Verse)

Couldn't let you off that easy
The words you said just to appease me left me cold
Your eyes could not deceit me
And as your tears fell to the floor I turned to stone

(Verse)

Don't know why
You even try
I have loved you more than you'll ever know
I'm letting go

(Chorus)

Little did I know you
Little did I know you like I should
'Cause every time I'd hold you
I knew that you'll be leaving me for good, I knew you would

I thought this love was made of gold
Little did I know
We'll never know

(Verse)

Telling my same old story
It grows older every single time it's told
Walking down in a blaze of glory
They're the last side of your lies you've built of gold

(Verse)

Black or white
I'm alright
Loving me with a half a heart for so long
Now we got this song

(Chorus)

Little did I know you
Little did I know you like I should
'Cause every time I'd hold you
I knew that you'll be leaving me for good, I knew you would

(Verse)

Throw away your diamond ring
Forget the sweetest ten rings
I'll never ease the poison to my soul
Somewhere along they move and go and there everyone goes

(Bridge)

Little did I know you
Little did I know you like I should

(Chorus)

Little did I know you
Little did I know you like I should
'Cause every time I'd hold you
I knew that you'll be leaving me for good, I knew you would

Little did I know

Little did I know
Little did I know!
Little did I know
I thought this love was made of gold
