

# Never There

Lee DeWyze

You never know  
All the things we didn't say  
We both know  
That it shouldn't be that way

And I believed  
In everything you've ever said  
Just walk away  
You were my last

Cause it simply disappears, yeah  
And all the thoughts and memories  
The things you whispered in my ear  
I pushed away

Everything I've ever loved  
And after all this time  
It's very very clear  
That you were never there

Keep the lies  
The truth is all that you have left behind  
You forgot yourself  
I walked away  
To live, to love, to breathe another day, yeah  
And all I need for you to do

Cause it simply disappears, yeah  
And all the thoughts and memories  
The things you whispered in my ear  
I pushed away

Everything I've ever loved  
And after all this time  
It's very very clear  
That you were never there

I needed to find  
An alternative to you  
I think I did  
The only living proof  
Is in my head  
An once you're better off, you're better off, oh you're better off  
And all I need for you to do

Yeah, yeah, yeah, yeah, oh, yeah  
You were never there  
Yeah, yeah, yeah  
You were never there
