

Open Your Eyes

Lee DeWyze

Open your eyes
Open your eyes
You've gotta say the truth to say the right
Open your eyes
Open your eyes
You've gotta feel the lows to feel the high

What's coming over me?
I can barely breathe
Everyone can see
Everyone but me

Open you heart
Open you heart
Upward together, why you tore apart?
Open you heart
Open you heart
Remember where I am and where you stopped

What's coming over me?
I can barely breathe
Everyone can see
Everyone but me
