

# Weightless

Lee DeWyze

standing at the door  
like a thousand times before  
right here on the edge of something beautiful and new  
you help me to let go  
find some room to breathe  
close your eyes and hold your breathe  
i promise you will see  
angels and wings  
balloons have strings  
but you and i need anything  
we'll just go to a place that no one knows

my feet can barely touch the ground  
floating up so high  
I'm never coming down  
so take my hand  
only you and me  
together we will be  
weightless  
weightless

its not hard to figure out why my heads up in the clouds  
from way up here its clear to me what angels dream about  
church bells will ring  
the melody sings  
you and i will have everything, we can touch the sky  
we'll be so alive

my feet can barely touch the ground  
floating up so high  
im never coming down  
so take my hand  
its only you and me  
together we will be  
weightless  
weightless

i can be flying over cities, flying over oceans, over streets  
we can call the stars our home  
tell me how far do you want to go

my feet can barely touch the ground  
floating up so high  
im never coming down  
so take my hand  
its only you and me  
in this mystery  
you and me  
together we will be  
weightless  
weightless
