

## My Baby Cried All Night Long

Lee Hazlewood

My baby cried all night long my baby cried all night long  
She saw me dancin' with a girl named Flow  
A huggin' and a kissin' with the lights down low  
And my baby cried all night long

Ah my baby cried all night long my baby cried all night  
long  
She saw me messin' with a girl named Sue  
And baby can't do what Sue can do  
And my baby cried all night long  
[ strings ]  
Last night I cried all night long (this is the sad part)  
Last night I cried oh yeah all night long  
I saw my baby out on the town  
Doin' all the things I done and Lord it brought me down  
And you can bet I cried all night long  
Last night I cried all night long

And the moral of this story is that you shouldn't be  
caught messin'  
Where you shouldn't been messin' or you'll end up cryin'  
all night long  
And that's when I end up cryin' all night long  
Cause I was caught messin' where I shouldn't been messin'
