

This Town

Lee Hazlewood

This town, is a lonely town
Not the only town, like this town
This town, is a make you town
Or a break you town and bring you down town

This town, is a quiet town
Or a riot town, like this town
This town, is a love you town
And a shove you down and push you 'round town

[Instrumental]

This town well it's an all right town
For an uptight town, like this town
This town, it's a use you town
An abuse you town, until you're down town
