

Beautiful Noise

Lee Kernaghan

I got a red dirt train out in the sticks,
a shed with a chevy in a million bits its a big day,
she's in the driveway we got fuel in the tank, hand on
the wheel i can see ur reflection in the chromiun steel
slip the key in, i got ignition

Its a beautiful noise, its the rush of the wind Its the
beat of the heart, the jump of a spark Its the love
that were in Its the song of the road, It's the promise
it brings the sound of chaseing a dream, Its a
beautiful noise.

The grease in my oil drums fall behind.Its a big
horizon on a broken white line,round sunset, were not
done yet.Girl we gonna find out what we got just you
and me out on the black top wind in your hair, were
gettin out of here

Its a beautiful noise, its the rush of the wind Its the
beat of the heart, the jump of a spark Its the love
that were in Its the song of the road, It's the promise
it brings the sound of chaseing a dream, Its a
beautiful noise.

The rhythm of the highway keeps rolling on and your in
my arms, and i can feel the pounding of ur heart

Its a beautiful noise, its the rush of the wind Its the
beat of the heart, the jump of a spark Its the love
that were in Its the song of the road, It's the promise
it brings the sound of chaseing a dream, Its a
beautiful noise.its abeautiful noiseooooohhh its a
beautiful noise
