

Party Town

Lee Kernaghan

Out there in the boondocks
Bullet holes 'n truck stops
See 'em rollin' in through the heat
Fillin' up the North Star
Packin' in the front bar
Spillin' out into the street
It's been a long haul
But the wheat cheques in
The tractors are back in the shed
Things are getting louder
It's a keg of powder
And you ain't seen nothing yet,

Party Town, Party Town
The place lights up when the sun goes down
The bush is arcin' as the word goes round
And everybody's comin' down,
To Party Town.
Oh oh, Party Town
Oh oh, Party Town

By a full moon glow,
There's a place that we go
Out the back and down in the dirt
Dancin' on the tailgate
Gonna make ground shake
Somebody's gonna get hurt
Freaks and ringers
And a few mud slingers
Ute girls and jackaroos
Things are gettin' hotter
Steamin' up the water
When some girls take it into the creek

Party Town, it's a Party Town
The place lights up when the sun goes down
The bush is arcin' as the word goes round
And everybody's comin' down,
To Party Town.
Oh oh, Party Town
Oh oh, Party Town

It's a scene of desolation
Total decimation
Every party comes to an end
It won't be surprising
As the sun is rising
We'll start it up and do it again,

Party Town, Party Town
The place lights up when the sun goes down
The bush is arcin' as the word goes round
And everybody's comin' down,

Party Town, Party Town
The place lights up when the sun goes down
The bush is arcin' as the word goes round

And everybody's comin' down,
To Party Town.
Oh oh, Party Town
Oh oh, Party Town
