

# Don't Water It Down

Lee Roy Parnell

I like my coffee strong and black  
Don't cut it with no cream  
I like my clear corn liquor  
I like my high test gasoline

You come on like a freight train  
But Honey, you're on the right track  
Go ahead and give it full throttle baby  
Don't hold nothing back

Don't water it down  
Shoot it to me straight  
Whatever you got to dish out  
Honey, I can take

Ain't afraid of the hard stuff  
And I ain't just foolin' around  
Give it all you got girl  
Don't water it down

Some like a woman meek and mild  
That don't get in the way  
But I like a woman just a little bit wild  
That says, what she means to say

Honey, whatever you're feeling  
Don't sugarcoat the truth  
Go on tell it like it is little girl  
I can handle a hundred proof

Don't water it down  
Shoot it to me straight  
Whatever you got to dish out  
Honey, I can take

Ain't afraid of the hard stuff  
And I ain't just foolin' around  
Give it all you got girl  
Don't water it down

Don't water it down  
Give it to me straight  
Whatever you got to dish out  
Honey, I can take

Ain't afraid of the hard stuff  
And I ain't just foolin' around  
Give it all you got girl  
Don't water it down

Oh, don't water it down
