

## Oughta Be A Law

Lee Roy Parnell

Oughta be a law oughta be a law y'all  
Oughta be a law against anybody walking that way

Oughta be a law oughta be a law y'all

The way she moves is a moving violation  
It just ain't right what she's doing to me  
She walked by and stole my attention  
You know it makes me want to lock the girl up  
And throw away the key

There oughta be a law oughta be a law y'all

Driving home she turned me around  
I had to make the block come back and check it out again  
Blood red dress and dangerous curves  
When she flashes her smile at me it threw me into a spin

Oughta be a law oughta be a law y'all

She's stopping traffic up and down the street  
Making a wreck of every man she meets  
Somebody ought to go call the police  
She's disturbing the peace

Oughta be a law oughta be a law y'all

She ought to get a citation for all the excitation  
Go before the judge and jury for causing such a fury  
There ought to be some kind of law y'all  
There ought to be some kind of law y'all
