

Wish the Whole World Knew

Lee Ryan

All of the things i never did,
I was waiting for the right time,
All of the things i never said,
I was waiting for the right line,

When is the right time ever right,
Id be waiting all my life,
So Im gonna show you now,
The only way i know how,

And i dont care who sees,
I dont care who tells who
I wish the whole world knew,
Baby i've been kissing you,
Though people walking by,
May stare at you and I,
The world is out of view,
baby when i'm kissing you,
baby when i'm kissing you.

Girl i had nowhere left to go,
I was waiting for the right sign,

Something you'd say to let me know,
It was time to cross that line,
All of this time i didnt know,
That you were already mine,
Let me take out all the way,
Share you what no words can say,

And i dont care who sees,
I dont care who tells who
I wish the whole world knew,
Baby i've been kissing you,
Though people walking by,
May stare at you and I,
The world is out of view,
baby when i'm kissing you,
baby when i'm kissing you.

Why, should i hide,
When you're close to me,
Its the only time, Im alive,
And I.
