

By My Side

Left Alone

And I can not believe
When I awoke today
Cause I'm not alone anymore
All the things she makes me feel
They run so deep inside
I love her forever more

Walking, holding hands,
Kissing on the wet sand
Well there's nothing better than this

Don't wanna be a stray cause I
Don't wanna be afraid and I
well she's something that I will miss

And I'm not alone tonight
I got my girl by my side
And there's nothing else that's better than this
Holding her in my arms as we are sharing a kiss

She's always got a smile on her face
In her arms I feel in place
Her love feels like home
Don't want to be apart cause I

Don't wanna fall apart cause I
Don't wanna go back to being alone

Won't be alone tonight
I got my girl by my side
And there's nothing else that's better than this
Holding her in my arms as we are sharing a kiss

Won't be alone tonight
I got my girl by my side
And there's nothing else that's better than this
Holding her in my arms as we are sharing a kiss
