

## Life Is Pain

Leftöver Crack

Fuckin' like bunnies; Breedin' like rats  
We're shittin' out the babies & I'm tellin' you that that's  
Mad against the better judgment in our human history  
Take some time to think it over; It's not difficult to see  
You can wait until you're older; Or you're in a better place  
Just remember there's no way to win this fucked-up human race  
I know you might be searchin' for some meaning on this earth  
(But) You'll be stabbin' nature in the back by givin' into birt  
h

You're too ugly & I'm too fat  
What kind of seed are we to spawn with genetic cards like that?

Plus addiction and depression is just swimmin' in my cum  
And we are weak & dumb

Fuckin' like bunnies; Breedin' like rats  
We're shittin' out the babies & I'm tellin' you that that's  
Mad against the better judgment in our human history  
Take some time to think it over; It's not difficult to see

We're mostly runts & too high strung  
In nature, mother eats the young  
Who are we to breed?; Put away your seed  
We can't evolve an iron-lung

And you're too ugly & I'm too phat  
What kind of seed are we to spawn with genetic cards like that?

Plus addiction and depression is just swimmin' in my cum  
And we are weak & dumb

Too many people on the way  
Worlds growing smaller every day  
As quantity grows, life quality goes  
Our lives are sick & in decay
