

# Badgirl

## Legend

Badgirl, I'm missing you  
Badgirl, you know that it's true

Remember the days when loving was fun, you said that I was the  
only one

Badgirl, why did you go?  
Badgirl, I guess I'm too slow

Badgirl, when (are) you coming home?  
Badgirl, can't leave you alone

You came obsessed with a love I can't give  
Then went through me like sand through a sieve

Badgirl, why can't you stay?  
Badgirl, don't leave me this way

Badgirl, I miss you tonight  
Badgirl, will you be alright?

Living the nightlife is living for fun  
Take love and money from everyone

Badgirl, if only you'd stay  
Badgirl, I'd love you this way
