

Howling for Armageddon

Legion of the Damned

Thine father who wert in heaven, unhallowed be thy name
Since thou sanctions tyrant, rulers thy imagine we defame

Howling for Armageddon
Vanguard of the antichrist
Jackal breed born from hades

The seeds of irreverence are blossoming in fertile burial ground
We declare war on god and king, on a church and state that collide
Thrive in chaos and revolution, apocalyptic cleansing
Choose to adhere to lucifer, shining flame of light

Howling for Armageddon
Vanguard of the antichrist
Jackal breed born from hades

Insurrection and tyrannicide
Harbringers of a bloody tide
Driven by apocalyptic hate
Bent on bringing the terror state

Insurrection and tyrannicide
Harbringers of a bloody tide
Driven by apocalyptic hate
Bent on bringing the terror state

Hear the wolves of the antichrist
How armageddon will soon rise
driven by apocalyptic belief
Extermination by the chaos elite

We are the architects of terror, conceived with total hate
Scheming in secrecy, to overthrow the state
Diabolical nihilism, welcomes our violent tidings
Manifesting on the winds of chaos, hell and horror are riding

Witness the horror of infernal machines,
Tear apart our enemies with hellish devices
We relish in our passion for annihilation,
As we see the stone walls crumble
