

Morbid Death

Legion of the Damned

Lifeless body left in a corner,
death has graced her jaded face
Her legs are spread unceremoniously,
murder disguised as suicide

After satisfaction of his carnal obsessions,
he choked the life out of her
Submitting her to his vicious assault,
victim left with open thighs

Dim city lights in a chilling night,
the rapist is on the loose again
Seducing women with gentle voice,
not aware of his true intent

Having gained entry into her house
he will catch his victim unsuspect
For an ordeal of rape and murder,
the strangled on the hunt again

Morbid death by strangled fate

Showing no mercy for his unwitting victims,
silencing them without remorse
Exercising absolute power,
assailant seized by his (uncontrollable) urge

Abusing the victim without hesitation,
serial rapist with a throbbing pulse
Forced entry and strangulation,
the molested corpse lies defiled

Morbid death by strangled fate

Feeding on the pledges of his crying victims,
their final fate they soon will meet
Strangulation with their own garments,
choosing to prey on the weak

Exercising absolute power,
assailant seized by his (uncontrollable) urge
Showing no mercy for his unwitting victims,
silencing them without remorse

Abusing the victim without hesitation,
serial rapist with a throbbing pulse
Forced entry and strangulation,
defiling the molested corpse
