

Solar Overlord

Legion of the Damned

Solar overlord
Warrior priest of the sun
Pillar of the ancient order
God and beast as one

Solar overlord
Spawn of the invincible sun
Spartan discipline
Imposed on the militant monks

Solar overlord
Warrior priest of the sun
We are the sons of death
Calm in the storm

Solar overlord
Spawn of the invincible sun
Kali yuga reigns
This cycle of regression

Overman, titan height
Promethean thrust
Radiant anger, bursting hatred
Burning lust
Overlord, shade of Hades
Bringer of death

Bow down for the solar overlord

Kneel down for the solar overlord

A million sun storms in my mind
Transcending mundane madness
Ascending to heights unknown
I will unleash the thunderbolts

We are the thrusting horns
The order of the bull
The blood will be spilled
To celebrate the black sun
Raven of dispersion
Brought to the streets
Explosive charges and debris
Chaos to be unleashed

Overman, titan height
Promethean thrust
Radiant anger, bursting hatred
Burning lust

Solar overlord
Warrior priest of the sun
Pillar of the ancient order
God and beast as one
Raven of dispersion
Brought to the streets
Explosive charges and debris

Chaos to be unleashed
