

# Ten Horns Arise

## Legion of the Damned

Birth of the Antichrist  
Eternal opposer in the flesh  
Threescore six (burned) in my chest,  
Pour the whine of thy limbs  
O Scarlet concubine  
The final victory will be thine

A god of war and revenge  
Comes to settle the scores  
Shores will be washed in blood,  
The blood of the saints to be spilled  
Their pious heads cut off  
In defiance to be thrown away

Ten... Horns... Rise!.. Ten... Horns... Rise!  
The horns rising

Ten horned beast arise,  
Volcanic eruption of all sin  
Seven heads they scream out hell  
In eternal lust  
Morbid abomination once bred in  
The waste of Sodom  
Now finally unleashed  
From the shackles of the dog  
Bow (your head) to the seven crowns  
In awe of its magnificence  
Revering the majestic splendour  
Of indulgent revelry  
All foulness cast into the desert  
Is bound to return  
The apocalypse has begun  
And the demiurg will succumb

Ten... Horns... Rise!.. Ten... Horns... Rise!  
Ten horns rising!

Black chaos spewing forth  
The second coming is now  
The heavens coming down  
Lycanthropic Antichrist  
Infernal destroyer of gods  
Consumes the lysergic bride  
Black bitch of darkness  
Furious riding whore  
Mounts the beast with horns

Lycanthropic Antichrist  
Baptism in lunar blood,  
The god of eternal war

I tear out the eyes of Jesus  
As he hangs upon the cross  
I blind the face of Mohammed  
And throw his body to the boards,  
My claws rip to shreds  
The believers of all feeble creeds

I spit on your holy books  
And your priest hangs from the trees  
This is the twilight of your idols,  
Spiritual genocide  
In crowleyite excess I consume  
Strange drugs and wine  
The awakening of the anarch,  
Expression in terror and steel  
I rush with surging strength  
Into the torrent of wills

Lycanthropic Antichrist  
Baptism in lunar blood  
The god of eternal war

Ten... Horns... Rise!.. Ten... Horns... Rise!  
Ten horns rising!
