

Memorize Your Number

Leif Garrett

Just let me look at you now
Don't you say a word
I want to remember the first time we met

Before you move in with me
And move out a year from now
Don't forget that I told it's perfect
But you spoiled it somehow

Chorus

Oh, I don't (wanna memorize your number)
Don't want my heart to die
Every time I call and you're not there
(Memorize your number)
Don't want the pain to remain way down inside me
When you say goodbye

You say the words to me like
I haven't heard them before
I will want to believe
Fall through the door
And after you've taken them back
Don't forget they been saying
Don't deny I exist inside of your heart
Inside of your head

Chorus

How can we stay like this
This is the passion forever
Hold back and taste that first kiss
We both know there's nothing better

Chorus 3x
