

More Of It

Leigh Nash

I'm happy and at ease
With love as it has turned out to be now
You will be the man I like
Besides when all is said and is done with

And we will fly
Into a brand new sky

There's something in the air
I need it, I want more of it
A certain dive'll make it
But I don't, I'm loving it

I never hesitate to fall
I forget how much I want it, get all in
My dreams are getting used to you
I hope you don't get to use me and my dreaming

'Cause they will fade
Into brighter days

And there's something in the air
I need it, I want more of it
A certain dive'll make it
But I don't, I'm loving it

Maybe as long as we're together
Maybe this love is never over
You may stop your dreaming

There's something in the air
I need it, I want more of it
A certain dive'll make it
But I don't, I'm loving it

There's something in the air
I need it, I want more of it
A certain dive'll make it
But I don't, I'm loving it
