Alright With Our Love

I would stay up all night Just thinking of you All the funny things you say, The silly things you do Like when you're mad at me And you hang up the phone When I tell you no-one's here And I'm all alone

Tell me what will it take To prove my love to you? I would find the man who Walked a thousand miles And I'd walk in his shoes I would keep stepping on Keep pressing on Keep moving on 'Til I show you

Oh baby that it's

Alright with our love I'll be that one thing in your life Always right there by your side Alright with our love I'll be right there to the end Be your lover and your friend Said I don't wanna cheat And I promise I will never lie One thing I know deep In my heart is I won't ever make you cry Said I'm trying to make You understand I only wanna treat you right If my love was like the rain lady I would rain on you through The night

Tell me what will it take To prove my love to you? I would find the man who Walked a thousand miles And I'd walk in his shoes I would keep stepping on Keep pressing on Keep moving on 'Til I show you

Oh baby that it's

Alright with our love You don't ever have to worry baby You will always be That special lady (In my life - yeah) It's alright with our love Lemar

I'll be right there till the end Be your lover and your friend

My life has changed Oh, Since I found you babe No need to stray Since I found you girl I love one way Since I found you My life has changed Oh, My life has changed Since I found you baby No need to stray Oh, Since I found you girl I love one way
