

# Anniversary

Lemar

Put on your red dress  
And this diamond necklace  
Your love leaves me senseless  
I dedicate tonight to you  
Cos we made it through another year  
My love only gets stronger  
And i'll be here the next year  
Same time, same place, same girl

They say after the honeymoon, the passion's almost gone  
But i feel as though our love  
Has only just begun

It's our anniversary  
Celebrating you and me  
Nowhere else i'd rather be, oh no  
It's our anniversary  
A special day in history  
I will love you endlessly  
It's our anniversary

Put on your best suit  
I've got something for you  
I'll cover you in kisses  
Cos baby i adore you  
Your touch leaves me breathless  
And i only get weaker  
I will be there regardless, for my man  
I'm glad you're my man

This day always reminds me of, the reason i'm with you  
I'll never search for love again  
I've found the truth in you

Forever i'll be here and waiting  
(I'll stay the same though times are changing)  
We were meant to be together  
(No one could love you better)  
Got a question for you  
(Tell me i'm the answer)  
Baby let's stay in love

I love you  
I love you too

[Chorus x2]
