

## Better Than This

Lemar

Now here's the deal honey  
It ain't about the car crib or money  
Life could be oh so gravy  
If you'd try to understand me baby  
Now we may get mad at each other but  
The thing is don't stay mad forever coz  
You've been with me through stormy weather and  
Us two together be like bird's of a feather when  
We fly so high  
One body, soul and mind  
You pick me up, when i'm coming down  
That's why i love having you around

That love you're giving me  
Is sweeter than honey  
You're all i'll even need  
All you want, i'm gonna be  
Don't care about money  
It took some time to see  
It don't get better than this

You could be my girl forever  
We go together like pen meets paper  
Want you to bear my soldiers  
They can care for us when we grow older  
That might sound crazy baby but/  
The love i'm feeling for you is alot  
I would give you everything I've got  
I love the way you love me so much  
We fly, so high  
One body, soul and mind  
You pick me up, when i'm coming down  
That's why i love having you around

And since i met you baby  
You touched my heart (deeper than you know)  
Yeah! I wanna tell you how i feel about you/  
Listen! I Love You!

[Chorus x2]
