

# Invincible

Lemar

I had a dream, it was golden  
We were children, playing heart to heart  
There was a king, he sent the soldiers  
They had orders to tear us apart, oh no  
So we ran and we ran and they  
chased and they chased  
But the love that we had took us up,  
flew away

A better way  
We were huge, we were tall,  
They were weak, they were small  
And at last we were free,  
we could save... whoa  
It was amazing  
We were invincible  
Together we're invincible  
They can't take you away from me

Sound the horn call the cavalry  
We were invincible  
Together we're invincible  
They can't take you away from me, no whoa  
Invincible, invincible, whoa  
I still hear your voice  
inside my head, in my head  
Invincible, together we're invincible

They can't take you away from me  
Sound the horn call the cavalry  
We were invincible  
Together we're invincible  
They can't take you away from me, no whoa  
You have chosen me instead, instead
