

# Love Won't Leave Us Alone

Lemar

It's like love won't leave us alone

Can't stop these emotions from breaking me down  
Don't know where to go but I can't turn around  
Gotta get you closer, the music so loud  
I forget about

All the pictures that we broke up, it's all in the past  
All the things they told us, said we'd never last  
I gave in to your touch, we're falling so fast

It's like love won't leave us alone  
It's like love won't leave us alone

We got nowhere to hide, nowhere to run to  
Can't escape these feelings,  
Must be real when love won't leave us alone  
Won't leave us alone

So lost in the moment, it's just you and I  
Can't get more perfect, your body on mine  
Just the way you work it, I need you tonight  
Tonight...

Like love won't leave us alone  
It's like love won't leave us alone

We got nowhere to hide, nowhere to run to  
Can't escape these feelings, must be real when...  
Love won't leave us alone  
Won't leave us alone  
Won't leave us alone  
Won't leave us alone  
Won't leave us alone

It's like love won't leave us alone  
It's like love won't leave us alone

It's like love won't leave us alone  
It's like love won't leave us alone

We got nowhere to hide, nowhere to run to  
Can't escape these feelings,  
Must be real when love won't leave us alone  
Won't leave us alone
