

# Weight Of The World

Lemar

It's like chasing shadows  
I never seem to win  
Just when I'm over you  
I feel myself falling again  
No hope of grace  
I'm losing faith  
All I can do is pray

Can you hear me?  
Can you hear me? Oh  
Can you hear me?

It feels like the weight of the world  
Have the angels turned their back on me?  
It feels like the weight of the world  
Can't let go of what we use to be  
Oh, when all my cries  
Have gone unheard  
And I'm left on my knees  
It feels like the weight of the world  
Cause I still remember how it felt  
When you loved me  
When you loved me

I've got no road to follow  
Left with no eyes to see  
No love to barrow  
Since you left  
I can barely breathe  
In a lonely place  
And it can't be changed  
All I can do is pray

Love me again  
Or set me free  
Love me again, Oh  
Love me again  
Or set me free

[Chorus]
