

Deep In The Ocean

Lemon Demon

Deep deep deep deep deep in the ocean
Is a water-proof wristwatch that was dropped
From a boat, on a cruise, by a man full of booze
But even without a wrist it never stopped
Through a accidental accident at the factory
It was made so that it never need be wound
For the watch ran on love which it had plenty of
For there's plenty of loves to be found

Below the boats and sky
There's no such thing as time
There is no need for trying
To put together, put it together right
But people will someday lose our feat
Pick up some gills and travel

Deep deep deep deep deep in the ocean
And enjoy a life that should never get old
But it can, and it will
For we'll be human still
And wherever ocean real estate is sold

We'll be buying and selling and always propelling it forward
And the leader of the the fish shall take a stand
And we shall see it swim
With a wristwatch on it's fin
And the race of fish shall be taken over our land

The fish shall take our sea
The schools, the farms, the streets
And we'll be stuck down deep
And maybe we'll never
Put it together

Deep in the ocean
Deep in the ocean and motionless
Deep in the ocean
Deep in the ocean there be no sun anymore

Below the boats and sky
There's such thing as time
There is no need for trying
To put it together, we'll be forever

Deep in the ocean
Deep in the ocean and motionless
Deep in the ocean
Deep in the ocean and motionless
Deep in the ocean
Deep in the ocean and motionless
Deep in the ocean
Deep in the ocean and motionless

So much for our fish friends, limbs ends
Can't be tied, old cells are died
Gourgled eyed
And chased by a whales, swimming zooming

Murmaid tails, almost human
Skin touch it scales, I conclude

We've become sea food
We've become sea food
We've become sea food
We've become sea food
