

Don't Stop The Revolution

Lemonade Mouth

Uh, yay
Yeah, yeah, yeah
Freedom of speech
Ha, we are doing what we believe in
Standing up for stuff
You got to act like

Can you feel it, in the air
Ain't no stopping, we here
They don't want it, they scared
There's no one better
They're not ready with a change
New winner in the same game
And everybody know we gotta keep it popping
Always rocking when the beat is dropping, dropping

Just put the breaks on
Never gonna, never gonna
So put your hands up,
You know you wanna,
You know you wanna
Just turn the lights off
Cause we goin' hot in here, hot in here
Wild in here
Never stoppin' this out here

Don't stop the revolution
First try and you're gonna be loosing
Don't stop the revolution
You can't stop it, we won't stop it
You can't stop it once
The beat's dropping, yeah
Can't stop it once
The beat's dropping, yeah
You can't stop it once
The beat's dropping, yeah
You can't stop it, no
You can't stop it

... let me slack(?) for ever
We're like boys of ... the way we kick it together
With the jackets surrender (?)
And the passports so wet (?)
It's whether now you can keep up, never (?)
We're unstoppable, we come true
If you want to, you can come too
There will be cotton drags(?)
Micky got a move, a revolution it's just a fashion...

Just put the breaks on
Never gonna, never gonna
So put your hands up,
You know you wanna,
You know you wanna
Just turn the lights off
Cause we goin' hot in here, hot in here
Wild in here

Never stoppin' this out here

Don't stop the revolution
First try and you're gonna be loosing
Don't stop the revolution
You can't stop it, we won't stop it
You can't stop it once
The beat's dropping, yeah
Can't stop it once
The beat's dropping, yeah
You can't stop it once
The beat's dropping, yeah
You can't stop it, no
You can't stop it

Now all for reaching the top, reason to rock
Redeeming the plot, showing the world what you got
Ok, E is for the energy everybody is given
And V is for the value of revolution of vision, ok
O is for the onward movement
L is for the love that we placed up in the music
They stop an acoustic, they stoppin' a movement
So move to the next, let it do you and use it
TNI need some time and I've been realizing
That the concert's popping, kids watching
So you can see it in my song
Then the last two letters come along and it's on

Don't stop the revolution
First try and you're gonna be loosing
Don't stop the revolution
You can't stop it, we won't stop it
You can't stop it once
The beat's dropping, yeah
Can't stop it once
The beat's dropping, yeah
You can't stoW it once
The beat's dropping, yeah
You can't stop it, no
You can't stop it
